

Submission Guidelines

Authors of the accepted papers should strictly adhere to the following guidelines while submitting their final manuscript(s). Any paper found violating these will be removed from the conference proceedings.

1. The paper length should not exceed six pages and should follow the IEEE double column format. Please use the WORD / LATEX templates given below while formatting your paper.
2. No pictures or biographies of the authors are allowed anywhere in the manuscript.
3. The deadline for submission of the final manuscript in PDF format, after incorporating reviewers' comments if any, is September 15, 2008. No extension will be given. All final manuscripts should be submitted only through EDAS portal.
4. In order to guarantee inclusion of the paper in the conference proceedings, every accepted paper must be accompanied by at least one full registration. Where an author has more than one accepted paper, a single full registration will cover two papers.
5. The pre-registration deadline for the authors of the accepted papers is September 15, 2008.
6. The completed IEEE copyright form must be submitted online through EDAS by September 15, 2008.
7. (IMPORTANT) It is now REQUIRED that all PDF submissions be IEEE Xplore compliant. If your file is not Xplore compliant, it will NOT be published and will be removed from the TENCON 2008 conference proceedings and the IEEE Xplore database. To help you meet these new requirements, you must FIRST check to ensure that your PDF file is compliant by using the IEEE PDF express system BEFORE you submit your paper to the EDAS portal.

Please go to the IEEE PDF eXpress site at <http://216.228.1.34/pdfexpress/log.asp>

Click on the link "New Users - Click Here" and fill in your information.
You will need the Conference ID which is: <tencon08x>
